SKILLS

- Design & Prototyping: Figma, Adobe Creative Suite (Ps, Ai, Id), Onshape CAD, Fusion 360
- Research: Heuristic Usability Evaluation, User Interviews, Card Sorting, User Flows, User Personas
- Technical: HTML, CSS, Microsoft Office Suite
- Collaboration: Mentorship, Interdisciplinary Collaboration, Design Handoff

EDUCATION

BS Human Centered Design & Engineering – University of Washington **Sept 2025 – June 2027**

- Achievements: 3.85 GPA, Dean's List, 1 of 3 transfer students admitted into HCDE out of 50+ applicants.
- Relevant coursework: UX Research, Visual Communication, Sustainable Design.

AA Science Focus – North Seattle College **June 2024 – June 2025**

- Achievements: 3.87 GPA, President's List for 4 quarters, Dean's List for 1 quarter.

BS Graphic Information Technology UX Focus – Arizona State University (unfinished) **May 2022 – April 2024**

- Achievements: 4.00 GPA before transferring, Dean's List for four semesters.
- Relevant coursework: Human Systems Engineering, InfoDesign/Usability.

PROJECTS

Craigslist UX Redesign – ASU Four Member Group Course Project **10 weeks**

- Conducted a complete UX redesign of Craigslist to attract younger users without alienating existing users.
- Surveyed 17 users, interviewed 4 people, performed a heuristic evaluation, and 10-participant card sort.
- Designed and iterated on an interactive prototype in Figma, focusing on the homepage and core posting flow.

Site Glass – Privacy Browser Extension **24 hours**

- Awarded 3rd Place among 50+ other teams in a 24-hour consumer privacy themed hackathon.
- Led concept ideation and utilized UX best practices to rapidly design a user-focused pop-up interface that provides website privacy grades, cookie analysis, and breach history.

EXPERIENCE

SMC Navigator – Student Media Center, North Seattle College – Seattle, WA **Jan 2024 – Present**

- Managed and secured a media equipment inventory valued at over \$40,000, processing around 10 equipment check-outs weekly and ensuring all 165+ items were accurately accounted for and ready for student use.
- Elevated student project quality and efficiency as the Adobe Creative Suite Specialist, providing detailed technical and creative instruction to 20+ students weekly on software including Photoshop, Illustrator, and InDesign.
- Contributed to a yearly increase of 500 services by taking initiative to create 35+ promotional assets that enhanced service discoverability and access.

Laboratory Aide – STEAM Labs – Mesa, AZ **Oct 2022 – May 2024**

- Designed and assembled 500+ Rube Goldberg machine kits for 4 different events.
- Managed competition backend for 300+ participants utilizing excel for data management, mail merge automation to send custom scoresheets, and survey creation and distribution for feedback.
- Delivered 8 unique trophies on a 3-week deadline while managing a full course load, utilizing CAD, laser cutting, and 3D printing.
- Collaborated with an interdisciplinary design team with 7 members to adapt their trophy concept in Fusion 360 to be manufacturable using FDM 3D printing techniques.

Undergraduate Teaching Assistant – Arizona State University – Mesa, AZ **Jan 2024 – May 2024**

- Led 10+ activities and discussions across 2 graphic design courses to enhance understanding of course material.
- Provided 30+ 1:1 sessions to students across Slack and Zoom clarifying visual design and other concepts.
- Provided detailed, constructive feedback on weekly assignments for two classes of 30+ students each.
- Collaborated with professors on instructional materials and assignments.

Coding Instructor – Coding With Kids – Seattle, WA **Jun 2023 – Aug 2023**

- Maintained high student engagement by tailoring and teaching coding curriculum to groups of up to 16 children aged 5-12 using interactive methods.
- Implemented effective behavior management strategies to address diverse student needs, ensuring a safe, inclusive, and focused learning space with groups of up to 16 students
